

SEWAGE CANAL  
TO BE STARTED

Ald. Semple Reports Survey Done on Outlet to the River; Tanks Proposed.

The installation of a sewage tank system of disposing of the sewage in El Paso is one step nearer realization. A \$100,000 bond issue was voted during the last administration for that purpose, and plans for starting the system are approaching completion. At Thursday's meeting of the city council, alderman R. C. Semple announced that the survey for the canal at the disposal plant has been completed and work would start Monday. Whatever system of tanks is installed, alderman Semple said, this canal would be an important link, while it will give temporary relief from the conditions at the plant at present.

The canal will be about 1500 feet long and will cost about \$1000. It will carry sewage into the river. Under the tank plan, three kinds being considered, the sewage would first be chemically treated and then emptied into the river via the canal.

There being no objection to the paving of Noble street from Nevada to the alley north of River street, an ordinance was passed to that effect. The improvement was placed on first reading. City engineer S. M. Williams filed final acceptance of the paving of Noble street, from Santa Fe street to El Paso street; La Lina street, from Hueso street to Marr street, and Santa Fe street, from Seventh street to the bridge.

At the request of the food administration, the council passed an ordinance, to be effective immediately, making it illegal to sell any in the city except by weight.

**Protest Storage of Hides.**  
A petition, signed by a number of citizens, was received, asking that the Howard Hides & Leather Co. be ordered to discontinue storing, handling and drying hides at 905 Mills street. The petition was referred to the public welfare committee.

**Deaths, 21; Births, 32.**  
Thirty-one deaths and 32 births were the vital statistics for the city during the week ending Wednesday. The health department showed: The births were seven Americans, 23 Mexicans and one negro, and the deaths were three Americans, 21 Mexicans and two negroes. Cases of contagious diseases remaining were: One smallpox, four typhoid fever, two diphtheria and 23 whooping cough. Food consumed consisted of 228 pounds of meat and 1849 pounds of fruit and vegetables. Eleven sanitary tickets were connected during the week.

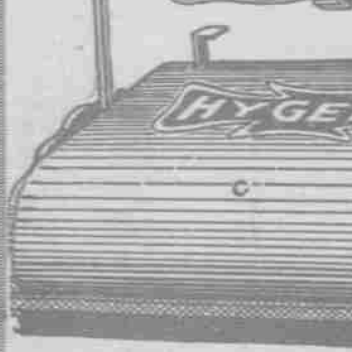

Sanitary commissioner L. D. Hullum reported his department handled during the week 625,700 pounds of garbage, 72,000 pounds of ashes and 21,000 pounds of manure.

STRICTER CHECK  
ON SUGAR SALES

Grocers Agree to Keep Individual Records, to Prevent Evasions.

A strict account of the amounts of sugar sold to all customers will be kept by the local retail grocers beginning Thursday morning. This was agreed upon by the grocers Wednesday night at their regular weekly meeting at the chamber of commerce building. Charles N. Bassett, district food administrator, asked the grocers to keep a strict account of the sales, saying, in part:

"Information has come to the food administration that a few residents of El Paso are going from store to store making sugar purchases, two pounds at a time. By this means they avoid the voluntary ration of three pounds per person per month, which all patriotic and thoroughly American citizens are observing."

**Knows Grocers Will Cooperate.**  
"From past experience I know that the retail grocers are going to be willing to do all they can to assist in any action to help win the war. For that reason, I am asking that all retail grocers keep a strict account of all sugar sales, sell only to their regular customers, and will not sell to anyone who is not a regular customer."

**Efforts Don't Need Sugar.**  
Miss Lou E. Stallman, government food expert and demonstrator under the United States department of agriculture, who is here to conduct a two weeks' lecture course on preserving and canning, under the auspices of the home economics department of the University of Texas, attended the meeting Wednesday night and told the grocers that sugar was not an essential in canning fruit.

"Sugar is not an essential in the canning and preserving of fruits," Miss Stallman said. "You can put up fruit without sugar as well as sugar as with it. The only reason sugar is used is to make the preserved article more palatable. We are urged to use as little sugar as possible, and we are likewise urged to preserve and can as much as possible."

**Certificates by Administrator.**  
Another ruling of the food administrator that was brought to the attention of the grocers was the ruling that certificates for five pounds of sugar to be used by housewives in preserving and canning must be obtained from the office of the local administrator. Hereafter, certificates have been issued from the grocery store at the request of the customer and are given for the purpose of being used for preserving and canning. The grocers have been urged to tell their customers that they would be glad at any time to arrange for classes.

**"Horse-Drawn Hearse Or I Will Come Back and Make Trouble"**  
Hood River, Ore., July 18.—M. E. Welch, pioneer veterinarian and lover of horses, has served notice on local undertakers who are ultra-modern in their ways of business that when he dies he doesn't want to be drawn to the cemetery in any new-fangled automobile hearse.

He has added a codicil to his will setting forth that he wants to be carried to his last resting place in a horse-drawn hearse, and that if his wishes are not observed he will return and make trouble for those disobeying his final request.

**Taken home to die—health restored by Tanlac—gained 20 pounds.**  
Robert T. Kelly, a well known former alderman and for three years in charge of the county fair of Challe county, Texas, told an interesting story the other day about the recent recovery of his health through the use of Tanlac. Mr. Kelly lives at 1203 North Commerce street, Ft. Worth, Texas, and in relating his experience said:

"Eleven years ago I was a strong and healthy man and weighed a hundred and fifty pounds. Something went wrong and I lost my appetite and fell off till I was almost skin and bones. My nerves were shattered and my whole body was racked with pain so that I could hardly get a night's sleep. I became so weak that I took to my bed and lay flat on my back for several months. I tried all kinds of medical treatments, but kept getting worse and finally went to a hospital to see if that would help me, but they could hold out no hope for me and was taken home to die. Even my best friends gave me up and I thought my time had surely come."

"I had heard so much about Tanlac that I decided to try it as a last resort, and I had hardly used more than half my first bottle before I felt it was strengthening me out. The pains ceased to leave me and I picked up till I gained twenty pounds and I have since an appetite I am actually ashamed to eat all I want. My nerves are stronger and I sleep like a log and I get around better and feel more lively than I have in many years. My wife was in a badly rundown condition too, and Tanlac soon set her up again as well as me."

Tanlac is sold in El Paso by Kelly & Peckard Co., Inc., and People's Drug Store.—Ad.

Word has been received by Mr. Cooley from Judge J. P. Carr, state chairman of the council of defense, to organize at once community councils in every school district in El Paso and this will be proceeded with at an early date, said Mr. LeBaron.

It is reported that practically none of the sugar obtained this way has been returned.

The purpose of the new regulation is not to discourage canning and preserving, but rather was necessitated by the fact that the recent German drive on the sugar market has caused sugar refineries in France and the need for sugar at the front is really imperative.
